

Unity High School
The Leading International School in Sudan
[Founded 1902]
مدرسة الأتحاد العليا

P.O. Box 85
Khartoum
Sudan

31st August 2020

Dear Parents

I hope that you are well and able to stay safe in the current situation.

As you know from my previous letters, in school we have been working to commence online learning from 7th September and also to create and maintain as safe a school environment as possible ready for when we can begin to bring students back into school.

There is an online presentation setting out all the ways we intend to keep Unity as low risk environment as possible and also enable continuity of learning.

The link to this presentation will be sent to the parents of all registered students.

Please take time to watch it as it includes a lot of detailed information about:

1. Keeping everyone as safe as possible to reduce the chances of spreading the COVID-19 virus in our community
2. The ways we will be providing continuity of learning – now and over the coming months until we can operate ‘as normal’ again.

Please make sure that school has an email address for a parent so that we can send you the links and log in details to access the online lessons and materials. This will also include introductory information about using Zoom and Moodle.

All students need to get ready for learning as online lessons will commence on 7th September. They will need to:

- Wear correct school uniform for all lessons,
- Have had a good night’s sleep, some breakfast and be alert and ready to learn

01/09/20

Telephone: (2491) 83781551

Fax: (2491) 83785200

e-mail: principal@unityhighschool.org website: www.unityhighschool.org

- Log in punctually for each lesson (teachers will be checking the register)
- Have their text books and copy books with them at the beginning of the lesson
- Have their own pens, pencils, rulers and crayons (geometry sets and calculators as needed).

Please ensure that each student has access to the following:

1. Device to access the system, it can be Computer with mic/camera, Laptop, Tablet or Smart phone.
 2. Internet connection* (4G speed) preferred.
 3. Internet Browser (Firefox preferred).
 4. Zoom application installed.
 5. Earphones
- *You may wish to consider a device such as 'Mifi' which will provide internet connectivity, even when there is no signal or electricity.

Please be aware that, along with many other schools, our precautions for keeping everyone safe will be very strict, there can be no exceptions and I hope that you will understand and co-operate with the school in the best interests of keeping our students, families and staff safe from the COIV-19 virus.

With all good wishes

Yours sincerely

Mrs Fiona
